### THE OHIO ELECTION.

**Headly's Majority Estimated at 10,000.**  
COLUMBUS, Oct. 13.—Official returns from Tuesday's election began coming in slowly to-day, six counties being received up to ten o'clock to-night. Franklin county official count gives Headly 1497 plurality. Secretary of State Newman estimates Headly's majority in the State at 10,000. No figures have been received to change the estimates made on the Legislature. The second amendment received over half the votes in the counties named, and granting the same rate in Hamilton and Cuyahoga counties, it is estimated the amendment will be defeated by 5000 at least. Still there are some friends of the measure who claim it will be adopted by 10,000.

### GENERAL DISPATCHES.

**A Monstrous Petition for Sergeant Mason's Release.**  
WASHINGTON, Oct. 13.—The National Republican to-morrow will quote Judge Advocate General Swain as saying that he is of opinion that the President will soon pardon Sergeant Mason, imprisoned at Albany for shooting the assassin of Guiteau. It will also say this opinion prevails generally among army officials stationed in this city, and that the examination of the records of the War Department show that the application for Mason's release from the largest general petition ever presented on any subject in the history of the United States, the signatures attached to which are from every State and Territory, aggregating more than 900,000.

**New York Stocks and the Vanderbilt.**  
WALL STREET, N. Y., Oct. 13.—Stocks opened firm and advanced one-eighth to seven-eighths. Vanderbilt and Villard shares are strong. The first named are strengthened by an interview with V. H. Vanderbilt about the affairs of his son, in which he denies emphatically certain unfavorable rumors current for some days past. His statement that he had bought stocks within the past few days, and also his remarks that there was likely to be a change for the better, were soon accepted as significant.

**The Old Ticket.**  
PHILADELPHIA, Oct. 13.—A public meeting was held in the Fourth Ward this evening in favor of the re-nomination of Tilden and Hendricks on the Democratic ticket of 1876. Gen. Wm. B. Thomas delivered an address, and an organization was formed upon the spot to be called the National Army of Retribution, with an auxiliary corps in every State.

**General Sherman's Retirement.**  
WASHINGTON, Oct. 13.—The Executive order in regard to the retirement of Gen. Sherman which was anticipated this afternoon was not issued, and nothing more can be learned about the subject to-night. It is probable, however, that the changes referred to in the dispatch will be announced to-morrow.

**Attended.**  
SAN FRANCISCO, Oct. 13.—August Bellenger, who had been on trial several days for the murder of John Kelly, was acquitted yesterday. The jury took the view that the shooting was accidental.

**Villard's New Enterprise.**  
CHICAGO, Oct. 13.—Both here and in New York the statement is published that Villard, of the Northern Pacific, has practically arranged for the construction of a number of steamers of unusually heavy tonnage and great speed to operate in connection with the Northern Pacific from Superior City and Duluth to Buffalo, and by this means to overcome the cost of transportation of grain from the line of that road by way of Chicago and thence East. It is also asserted that the Villard line has been quietly obtaining control of the New York, West Shore and Buffalo, thus giving during the season of navigation, through freight from the Pacific Coast to the East.

**Ravages of Yellow Fever in the New Orleans.**  
NEW ORLEANS, Oct. 13.—The Picayune's Mobile special says: Dr. Ford telegraphs from Brewston showing that in the past few days they have not had sufficient help to bury the dead. Regarding the nature of the disease, he says: "I state as a fact that there have been no deaths from black vomit here. The matter ejected by some of the sick bears about the same relation to the black vomit as the urine of the victims does to ink. The constituent parts are bile and gastric mucus, which contains a trace of coagulated blood in charcoal water. There are ten new cases to-day."

**Concerning Postage Stamps.**  
SAN FRANCISCO CALIF.  
The amended postal law is not yet universally understood. It is said that the first day the law went into effect over two thousand persons dropped city letters into the Philadelphia postoffice, prepaid with the new stamps of five-cent stamps. An opinion prevails with many that the foreign rate of postage was reduced from five to two or three cents. These people, by paying more attention to current news, they find it is in the daily papers, and will be enabled to correct their misapprehensions. It is erroneous to suppose that three-cent stamps or envelopes are used in the hands of private parties. For a foreign letter, a two-cent stamp can be added to the three-cent stamp, and the letter will be sent to its destination. So, in all other cases where it is desirable to increase the postage value, the three-cent stamp is good to the extent of its denomination, or as a newspaper cotemporary puts it, "the three-cent stamp may be used the same as before the 1st of October, the only difference being that they are just one-third better than before in any case where the postage exceeds three cents."

**The Yonito in Mazatlan.**  
The yellow fever is reported as abating in Mazatlan probably for want of something to feed on. Opinions still differ as to the true nature of the disease, some asserting that it is yellow jack and others taking a different view. Mrs. Atkinson, who nurses the Mexican patients and who had seen the disease in Memphis and elsewhere, declares that whatever may have been the nature of the scourge that swept the Mexican cities, the patients on the *Yonito* had the yellow fever, pure and simple. A gentleman sends the following letter from Mazatlan: "I tried very hard to get passage upon the steamer that takes this, but it was not to be. As they have a short time ago, and are now on the way. The delay arose from the Government rejecting a lot of the steamer's cargo of oranges for a defect in the skin. The contractor was obliged to make a new one."

**Four-Cent Stamps.**  
The San Francisco Post office has received notice that the new four-cent postage stamps were forwarded from Washington a short time ago, and are now on the way. The delay arose from the Government rejecting a lot of the stamps for a defect in the skin. The contractor was obliged to make a new one.

## LETTERS FROM THE PEOPLE.

[This is the Times-Union's Public Forum upon which all who have anything pertinent to the public interest, may stand and give their candid opinions to the people, the writer being responsible for their own sentiments and statements. Correspondents are politely urged to be clear, concise and to the point, to write plainly, and upon one side of the sheet only.]

## Public Enterprise.

To the Editor of the Times-Union: While we should be well satisfied with the wonderful growth of our city and country, yet, in this fast age of "rapid transit," our ambition flows on future results, and to this end allow me to call attention to an item of public benefit, a future ornamental and profitable enterprise, the city, wherein the passing of time allow largely to the advantages named, and with comparatively no expense. If the city will make a roadway 100 feet wide along the west side of Los Angeles river, out of the 300 feet in width of river bed claimed by the city, say from East Los Angeles bridge south to First street, or further, build it sufficiently wide to take property back of it (as it is claimed high water has been known to reach Alameda street). The willows now standing in the way of said drive could be properly secured and made the city the road as an ornamental ledge to protect the bank, while double rows of cypress trees planted on each side and center would in a short time make an ornamental and profitable item to the city, particularly for pleasure driving, and nothing of the world the trees would make. Can you not stir up our city authorities and the public generally to immediate action in this matter, for all such public improvements, beautiful and profitable, and the most attractive and beautiful, and it is my impression that interested parties along the river will contribute in large measure to the expense of the project, and in return the authorities can work in earnest and to the benefit of the individual interest in the matter is comparatively nothing, I will start the list with a subscription card of \$500.

JOHN F. HARRINGTON.

[The city authorities will please consider themselves stirred up.—Ed. Times.]

## Complaint of Unfair Awards.

To the Editor of the Times-Union: The Fair is over. The diplomas have been awarded, as the public suppose, to the most deserving. In this case, let us see how some awards were made. L. Lichtenberger, awarded diploma for best phant, also best top buggy, both made by Columbus Buggy Co. Hawley Bros., L. Lichtenberger, superior award, agent, diploma for best farm wagon, made by Peter Schuttler. What about the Studebaker wagons and buggy exhibited much superior in point of workmanship and material to those exhibited by others. Was it a put-up job? The public do not wonder much at the awards as made above. Was not L. Lichtenberger one of the directors, and were not the judges who awarded the diplomas his choice? The best Studebaker? Did not L. Lichtenberger go before the City Council about five years ago and request the Council to put an import duty or tax on all Eastern wagons brought into the city? Many of our citizens will remember the fact. Mr. L. forgot that Los Angeles city was a part of the United States, and that the Studebaker monopoly he would have had if he scheme had worked. In order to bring the true value of the diplomas to the public, I will give the true value of the diplomas as they are made. The diplomas are made of gold, and the value of the diplomas is \$100. The diplomas are made of gold, and the value of the diplomas is \$100. The diplomas are made of gold, and the value of the diplomas is \$100.

## In Memoriam.

ROBERT WHITE WARREN, JR.,

Died October 6th, 1883, at Hermosillo, Mexico, aged 24.

"Thou madest man, he knows not why. He thinks he was not made to die, And Thou hast made him know his end."

It is a severe test of the faith that would lead him to believe that "nothing walks without feet," to see him, fairly started on his journey, fall exhausted by the way.

To what purpose, now, those glowing aspirations, those noble desires, that neared his feet with passion and glad life's pathway with a pleasant glow, and made his goal seem easy to win? For what purpose were the loving pride and hopes of his parents nourished for awhile, to be now crushed in the avalanche of despair?

These are questions to which no Sanhedrin, synod or council that ever assembled has brought an answer. How often we have heard the cry of the Hebrew father of old, "My son, my son, where art thou?" and the answer, "I am dead, and thou hast said, 'My son, my son, where art thou?'"

All consolation is but "vacant chaff," well-meaning for grain. The cry of the Hebrew father of old, "My son, my son, where art thou?" and the answer, "I am dead, and thou hast said, 'My son, my son, where art thou?'"

On the death from yellow fever of an employee, he was summoned by the railroad authorities to take his place, the duties being to run on the train to Hermosillo. There is no doubt that he was well aware of the imminent risk, and in complying with this demand, but declining to shrink a danger that others

were exposed to, and believing it in the line of duty, he obeyed and went to his death.

On reaching Hermosillo, he was attacked with the fever, and he died.

His father had written to him the railroad office there, and received a reply from himself that he was well and happy, and sending him a letter of greeting.

A still more cheering dispatch was received later, in reply to an affectionate inquiry from his father, "My son, my son, where art thou?"

It was from Robert himself and said, "I am much better and will recover. The hope kindled by this cheering news was soon quenched by the receipt of a letter immediately after, of the dreadful news that there were no hopes of his life. On the receipt of this dispatch was sent to him 'Your mother's prayers rise to heaven for you.'"

It is a sad satisfaction to know that this message reached him while alive and conscious. How must it have cheered the lonely boy, lying a stranger in a strange land, to know that the same loving voice that called him to rest in his childhood's days was pleading for him now. His mother's prayers that had followed him through his childhood and his youth, and which he could hear that voice across weary leagues of desert and mountain, and when he died a smile was on his lips.

## Indiana Sign Language.

There are seventy-six different vocal languages used by the American Indian, which are as distinct in pronunciation as the English, German, French or any other language known to civilized man. Hence, the migration of the Indian from the north to the south, and the passing of time, have made some of communication with the buffalo to a warmer clime and later in autumn and in turn the fellows who escaped from the scorching sun of the south, to find the cool breezes of the north, found that they must communicate with the brethren in order to make their visit endurable. Thus, these children of nature—for they are nothing more nor less—by common consent, began to perfect a system of sign language, which, though unworthy of being dignified by being termed a complete code, is sufficiently intelligible to permit of a pretty general use of it among the most intelligent men and women of the various tribes.

The plains Indians are credited with perfecting this sign language to a greater extent than any other. To such an extent is the sign language used that there are those who can converse as rapidly in this manner as by vocal speech, and although two seldom use the sign language, the general use of the sign language is so common that it is a pretty general use of it among the most intelligent men and women of the various tribes.
